

New design, weatherproof housing for outdoor installations. Its dimensions make it suitable for small CCD cameras (1/3" and 1/4") with fixed lenses. Made of extruded and die-cast aluminium, it is provided with an innovative opening system which allows access to the housings's interior; the body and the sunshield slide forward and hang in place, while the unit remains fixed allowing access to the camera from all angles. Its weatherproof features are ensured by EPDM-rubber gaskets and 1 PG9 + 1 PG11 cable glands with their specific gaskets.

A wide range of accessories is available, including sunshield heater kit and camera power supply in weatherproof box.

HET16K + WBCA
